

Our Date At Home Planner

HOW TO MAKE YOUR OWN AT HOME DATE LIST

Here are a few ideas to get you started...

Even if you can't go out, there are so many options to enjoy a date night with your spouse!

When you are intentional about dating (no matter what the circumstances are) your marriage becomes EXTRAORDINARY.

Each spouse should print out their own Top 10 List (see next page). Using their own preferences, jot down at least two ideas per category. Then share your list with your spouse.

Make sure to take a picture of each other's lists on your phone so you now have it handy for your next date night opportunity.
